

Final Website Project Presentation

CPTN-102, Website Development I

Day Classes: May 6, 2009 (Wed.), 2-4pm, Rm#102

Website presentation to both classes must include:

- A brief demonstration and explanation of the working website.
- An explanation of the concepts learned while developing the website.
- An explanation describing one or two of the obstacles encountered during the development process and what solution was developed to overcome the obstacles.
- An explanation of the difference if any of the time planned to development the website versus the actual time to develop the website.
- Describe one piece of functionality you were not able to implement and explain if this was due to time constraints or knowledge.
